

St Rose of Lima Academy
First Grade Summer Reading Project

Welcome to first grade? Summer is such a fun time. Along with all the running and swimming, please don't forget the reading. Please read every day.

You may read any books. It doesn't matter if your child is just beginning to pick up a few words or is a reader already. Parents and children can read any books aloud together or read independently. I encourage parents to get involved by helping your child choose books. Visiting the library is a wonderful summertime activity. Many of the local libraries have great summer reading programs for children. Be sure to check them out!

For the project:

You should choose a favorite book and complete one of the following projects:

- A character puppet (stick, bag, or sock puppet)
- A diorama (3D box)
- A poster
-

The project will be due the first day of school.

Enjoy the summer and remember to have fun reading every day!
