Rising 5th Grade – Summer 2023 (revised)

This summer, rising 5th grade students should do **30 minutes of IXL practice each week**. The topics/skills will now be found under the title **“Level F.”** You are to select as many of these topics as possible and practice them. Remember, the purpose of this assignment is to keep these skills fresh, so that you will be ready for 5th Grade Math in the fall.

Keep track of which topics/skills you practice each week, and for how long you practice each one. Enter the information each week on the chart found on the next page carefully. **At the end of the week, your parent/guardian should initial to indicate the “Total Minutes” for the week is correct. I will also**

Skills ↓	Week Ending →	6/19	6/26	7/3	7/10	7/17	7/24	7/31	8/7	8/14	8/21	8/28
A. Place Values: 2, 4, 5, 6, 7, 11												
B. Ordering & Comparing: 1, 2, 3, 4, 5												
C. Rounding: 3, 4												
D. Addition: 3, 5, 6
